

## Wi-Fi CERTIFIED Passpoint™ Device Directory

Wi-Fi CERTIFIED Passpoint™ is an industry-wide solution and certification program for equipment designed to streamline network access in hotspots and eliminate the need for users to find and authenticate a network each time they connect. Passpoint automates the entire connection process, enabling a seamless connection between hotspot networks and mobile devices, all while delivering the highest WPA2™ security. Passpoint is a technology requirement for Wi-Fi® roaming and is based upon Wi-Fi Alliance's Hotspot 2.0 Technical Specification.
